\$250 for full package

***Inquire with Event Coordinator if you are a small group only interested in one activity.**

• **DIGITAL PHOTO SCAVENGER HUNT** •

This digital hunt is completed via the app, GooseChase. One person per team will need access to an iPhone or Droid in order to access the hunt. Your team will be taken through a series of riddles that need to be deciphered in order to capture each animal photo before the other teams do. This race against time and the other teams will have your group laughing and learning all the way!

• **ANIMAL ENRICHMENT WORKSHOP** •

Enriched experiences enhance the quality of life for the animals in our care and you can now be a part of that care!

Given a variety of materials, your group will have the opportunity to create your own enrichment for an animal of your choice from a predetermined list. You will then have the opportunity to see your chosen animal receive the very enrichment you created for them! The animals can't wait to find out what fun surprises you have in store for them.

• **LARGER THAN LIFE YARD GAMES** •

Giant Jenga, Life Sized Checkers, & Cornhole, Oh My!

These provide great entertainment to pass the time while your other groups are participating in the activities above. Great for large outings that will need to be split into smaller groups.
